The *Foundation's* mission to enhance educational opportunities for the Two Rivers Public School District has truly been embraced. Thousands of hours donated by volunteers and generous contributions from supporters have helped grow the *Foundation* market value assets to \$890,428.48.

There is little debate about the value of education. Likewise, there is little dispute about the escalating costs of obtaining that education. Furthermore,

educational enhancements frequently become the victim of budgetary constraints.

In celebration of fifteen years of incorporation, the Foundation Board is asking supporters to help grow the assets. No contribution in the past was too small and any contribution in the future will help the mission to spread opportunities. Please consider a donation today and "Thank You" in advance for your support!

***1970 Alumni Respond***

The first group of graduates to respond to the Foundation's appeal to "spread the word" was the class of 1970. The Foundation asked graduates to:

*"Become a class representative for the Foundation to help spread the word to all graduates from Two Rivers. Drop us a line if you'd like to help your classmates stay connected to the school."*

The graduates collected \$200 at their class reunion this past summer and donated toward a scholarship through the Foundation. [Thanks Class of 1970!](#)

***Scholarship Recipient- Kris Schleis***

As I sit here and type these words, I find myself thinking about the past and what has gotten me to the future that I live in. The small fishing community on the lakeshore that I inhabited until recently is so far away but the memories are a mere thought away. Memories of the football clashes wearing the purple and gold, sprinting down the home stretch at the track, and walking downtown during Ethnic Fest will never be far from recollection. And though I will miss Two Rivers, my new home at the University of Wisconsin Whitewater has become a warm and receptive place to be. I would like to thank the Educational Horizons Foundation for awarding me with the Warren Otto scholarship, and for helping me to start toward my dreams.

Currently, I am working on my general education courses which I must complete before being allowed to start in my intended major, Accounting. Once I have completed the specified general education courses and complete a specified amount of community service, I will begin to take my accounting courses. I have also been highly involved with

Whitewater's Phi Beta Lambda chapter, better known as the college version of FBLA. I recently had the opportunity to travel to Fort Atkinson to share my experiences about FBLA and to share how it compares to PBL. I am also working hard to maintain my position on the Warhawk Track and Field team.

Coming to Whitewater was an eye opening experience for me. Coming from a town where everybody knows you and you know them, it was good to get a new perspective. I have met so many new people and have seen so many new and exciting things. About the only thing that is new but not exciting is doing laundry by myself. Who would have thought that a shirt could shrink so much?
